

# ZunoTales

## Data Privacy, Security & Compliance Pack

### Ensuring a Safe Storytelling Environment for Every Child

ZunoTales adheres to the highest global standards for data protection in educational settings. We prioritize student anonymity and secure processing over all other metrics.

#### Key Features:

- COPPA/GDPR Compliance: We do not collect PII (Personally Identifiable Information) from minors without explicit parental or school consent.
- Zero-PII AI Training: Unlike public AI tools, student inputs are processed in transient memory and are NOT used to train the underlying Large Language Models.
- Human-in-the-loop: All generated content is regularly audited by our safety team to ensure adherence to K-12 positive-learning guidelines.
- Data Residency: Options available for strictly EU-based or US-based data residency on enterprise contracts.
